Happy April, and welcome to Spring! This month, we will actively explore nature both inside and outside the classroom. We are excited to kick off our green bean project, where we will grow them in bags before transferring them to pots when they're ready. Additionally, I'm setting up a worm composting bin on our patio, which will further engage the children's fascination with the natural world.

Our focus will be on learning about flowers, birds, and bugs through hands-on activities and specific cards. This approach will empower the children to confidently identify each object while I provide them with the vocabulary to describe what they see. Their curiosity often leads to insightful questions about the colors of objects and the different parts of flowers, birds, and bugs. It's incredible to witness their enthusiasm during this sensitive period of language development. I encourage you to engage them in conversations about the flowers and birds you encounter—it will enhance their learning experience!

If University Place school district closes, we will be closed. If they have a late start, then we will open at 10:00am. No AM childcare, this will ensure our staff can get to school safely and in time for us to prepare the grounds for your safety. If we have 3 closures, we will have make-up days. Listen to local radio or TV stations or check the Internet (www.upsd.wednet.edu/upsd/site or www.montessorimotion.org) for school closure announcements.

"The child is both a hope and a promise for mankind."
