Welcome everyone to the 2025-2026 school year!

- Please make sure to read through your parent handbook and orientation handout and keep them as a reference.
- We will go outside every day (weather permitting) - please dress your child appropriately and comfortably for outside play.
- My assistant this year will be Ms. Genika and she will be helping us learn Spanish!
- We are so excited to get to know your children - it is going to be a fun year!!

Ms. Megan and Ms. Genika

Notes from Outdoor Enrichment

Welcome to the Outdoor Enrichment program, our theme this year is living in the Puget Sound. This will influence our direction with science experiments, art, music and literature. The deep indigenous culture from our area will be included. The next few months we'll begin lessons in zoology, botany, physical science and geography. Follow up information on what has been taught will be shared in future newsy notes.

Urgent message!! Please read the Outdoor program information that will be included in your folder. The specific details regarding the outdoor program will be supplied along with clothing requirements.

Our goal is to provide the children with freedom in an organized, natural environment. They will get messy! It is important they dress appropriately so they can experience the outdoor environment without the fear of their nice clothes and shoes getting muddy or dirty waterproof coats, pants, and boots, along with a change of clothes, will enable them to enjoy their learning.

We look forward to a year full of adventure with your children any questions please contact us I love connecting with the MIM families.

Ms. Bell

Notes from the Art Corner:

Welcome to a new school year! I hope everyone had a perfect summer! Your Mrs. Farber had a great summer, filled with a trip to NYC with my family, lots of time with family and friends on the Oregon Coast, surfing and even playing ice hockey! I also installed a ceramic kiln in my garage, though it isn't quite working yet! I hope to utilize it this year for some special projects with the students!

I have so many good things in store for art this year! We'll start off one step at a time as newer students familiarize themselves with art class and the returning students settle in. We'll be talking about primary colors and the color wheel and do a project inspired by Piet Mondrian. We use the word "inspired" a lot in art class. Give it a month or two and then ask your student what they are "inspired" by!

Ms. Farber

Notes from the Art Corner:

We are starting off our year with Do Re Mi and the desk bells. This is one of my favorite things to do with young children. It helps them understand a little about how music works on a primer level and is a great way to get your kiddos singing. Because they are familiar, we will be singing nursery rhyme songs during the month of September. It would be great if you could sing "Old MacDonald" and "Twinkle, Twinkle Little Star" with your child while you are driving to school in the mornings. Also, be sure to ask them about Red Fred (a big, fluffy red puppet) that they will be dancing with!
